Primary Examiner, Art Unit 1796

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 1 of the specification, please replace "claims priority from" with "is a C.I.P of" and after "filed October 5, 2001" please insert "now abandoned,".

2. The following is an examiner's statement of reasons for allowance: For reasons consistent with that noted by applicants in their response, the instant claims are neither taught nor suggested by the prior art. The prior art fails to teach or suggest the required properties (regarding silicone extractables and volatile compounds) found in the claimed composition. In addition, the Examiner is not able to make a case that these properties are necessarily present in any prior art release liner (i.e. that they are inherently present in the prior art). The closest prior art is believed to be the Eckberg et al. references of record. Applicants have shown that these liners do not meet the claimed requirements. Particularly noteworthy is the fact that the radiation curable silicone release coating in Eckberg et al., after devolatilization, has a considerably higher solids content than that claimed. In addition, the radiation curable silicone release coating used in the comparative examples is even closer to that claimed than those in Eckberg et al. (as shown by material data sheet provided). During the interview of 5/13/09 and in the response of 6/3/09, applicants have addressed the Examiner's concerns noted in the rejection of 2/2/09. As such the instant claims are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret G. Moore whose telephone number is 571-

272-1090. The examiner can normally be reached on Monday and Wednesday to Friday, 10am to 4pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on 571-272-1078. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
